SPRINGSUMMER2022COLLECTION

THE COLLECTION

La collezione Spring-Summer 2022 e' pensata per una donna che riscopre la consapevolezza di se stessa e la voglia di viaggiare.

La creatività si è messa in gioco per mostrare le proprie capacità di lettura della contemporaneità, tra riflessioni e inflessioni, minimalismo e caos, che rappresentano a pieno le contraddizioni del tempo che viviamo.

I colori esprimono un senso di dualismo con opposti che si uniscono.

Il fascino di eterni neutri, lilla spirituali, tonalità minerali e delicati pastelli coesiste con il blu e verdi naturali, calde sfumature terracotta, rossi dinamici e giallo.

Tonalità intramontabili incoraggiano l'espressione personale, che si voglia apparire modesti o stravaganti, consentendoci di avvicinarci al colore in maniera più consapevole.

The Spring-Summer 2022 collection is designed for a woman who rediscovers herself and the desire to travel.

Creativity plays a key role to read the contemporary world, between reflections and inflections, minimalism and chaos, which fully represent the contradictions of our time.

The colors express a sense of duality with opposites coming together.

The allure of eternal neutrals, spiritual lilacs, mineral tones and delicate pastels coexist with natural blues and greens, warm brown shades, dynamic reds and yellows.

Timeless shades encourage personal expression, whether you want to appear modest or extravagant, allowing us to get closer to color in a more conscious way.
